- Established and/or executed the PMOs for two critical USCB 2020 Decennial programs: the ~\$800M Census Questionnaire Assistance (CQA) for Maximus and the ~\$1.6B Technical Integrator (TI) program for T-rex
- Provided multiple PMO resources including 10 Project Managers driving execution on 25+ concurrent projects like the Migration of GSA enterprise 2-Factor Authentication (2FA) from SecureAuth to Okta and the Implementation of the ServiceNow Strategic Portfolio Management (SPM) module on the \$800M GSA Digital Innovation for General Services Administration (GSA) Infrastructure Technologies (DIGIT) contract for EmpowerAI

"[CPMC] provided DITD with instrumental support in a rapidly changing environment. Their steadfast efforts, technical expertise, and proactive collaboration allowed the decennial census program to overcome significant challenges and meet critical objectives during Option Year 1. Their performance has not only ensured project success but also laid a strong foundation for future advancements in the decennial census initiative."

~ USCB DITD Chief (SIRS)

- Provided PM Consulting to the Army Training Information System (ATIS) PMO providing guidance and expertise on agile requirements management, schedule management, export compliance, and cost reporting
- Augmented the Integrated Pay and Personnel System – Army (IPPS-A) PMO with cleared PM experts to establish baseline management and control, lead the schedule management team, and implement a change management practice for CACI

"This content helped highlight several process gaps that we have in program management. These are great tools for awareness and future institution in our projects."

~ Crowley PM

- USCB Prime contractor providing Disclosure Avoidance IT Services (DAITS) applying advanced differential privacy techniques within a high-performance AWS/EMR cloud computing environment to ensure census respondent confidentiality while maintaining data utility
- As prime on the Systems Integration Research Services (SIRS) contract, we provide technology engineering management, architecture, engineering, and integration efforts including System of Systems Architecture and Cloud Architecture and Engineering support governed by our Engineering Working Group
- Prime contractor at FAA delivering program performance monitoring, financial analysis, data visualization, systems and tool administration, and digital product lifecycle support - enabling informed decision-making across all levels of the organization

"CPMC has been a critical and trusted partner [on ATIS], and provided the knowledge, experience and resources to...drive necessary innovation, and create and shape the processes needed for success to maturity."

~ Peraton ATIS PM

- Developed and delivered a comprehensive PM Training curriculum to CACI and Crowley Program Managers
- Developed and implemented a holistic PM Evaluation process, including knowledge check interviews, skills assessment, and "ready now" rating to inform employee development and training needs
